

Winter Break Mini Camps

1-4pm

Members \$20

Non-Member & No Frills \$25

(Museum play not included)

Young Chemists Camp **Thursday, Dec. 27**

Calling all young chemists... grab your goggles, eye droppers, and beakers and join us for an afternoon of chemistry fun that will have you right in your "element."

Make chemical reactions, experiment with changes in matter, and dabble in color chemistry. It is guaranteed to be an afternoon of fun with some amazing "reactions."

Snowy Day Lego® Camp **Friday, Dec. 28**

Is your child crazy for Lego® bricks? We are pairing winter with Legos® and bringing the fun indoors. During this mini camp, campers will construct "cool" creations familiar to the snowy season! Build models such as ice hockey, skiing, luge, and more. No snow? No problem! All you need to create this winter fun is Lego® bricks and your imagination.

All camps for ages 5-11. Snack is included.

Register at our website www.gbchildrensmuseum.org or with our front desk.
